

A double degree is the concurrent awarding of two different bachelor degree types (BS, BA, BFA). Pursuing a double degree requires the guidance of faculty and staff from both programs early in your academic career.

Use this form with your [academic advisor\(s\)](#) and your [Academic Advisement Report](#) (AAR) as a planning worksheet to meet [double degree requirements](#). It is recommended that the student and each department keep a copy of the completed and signed form for their records.

To earn a double degree, all of the following criteria must be met.
